

1. Beòthaichean | Animals

The card game 'Memory' is a great way for learners to try and memorise new vocabulary by matching pictures to the word. In this game, learners match the names of animals to the pictures.

LEARNER 1

Dè tha seo?

LEARNER 2

'S e (beòthach) a th' ann.

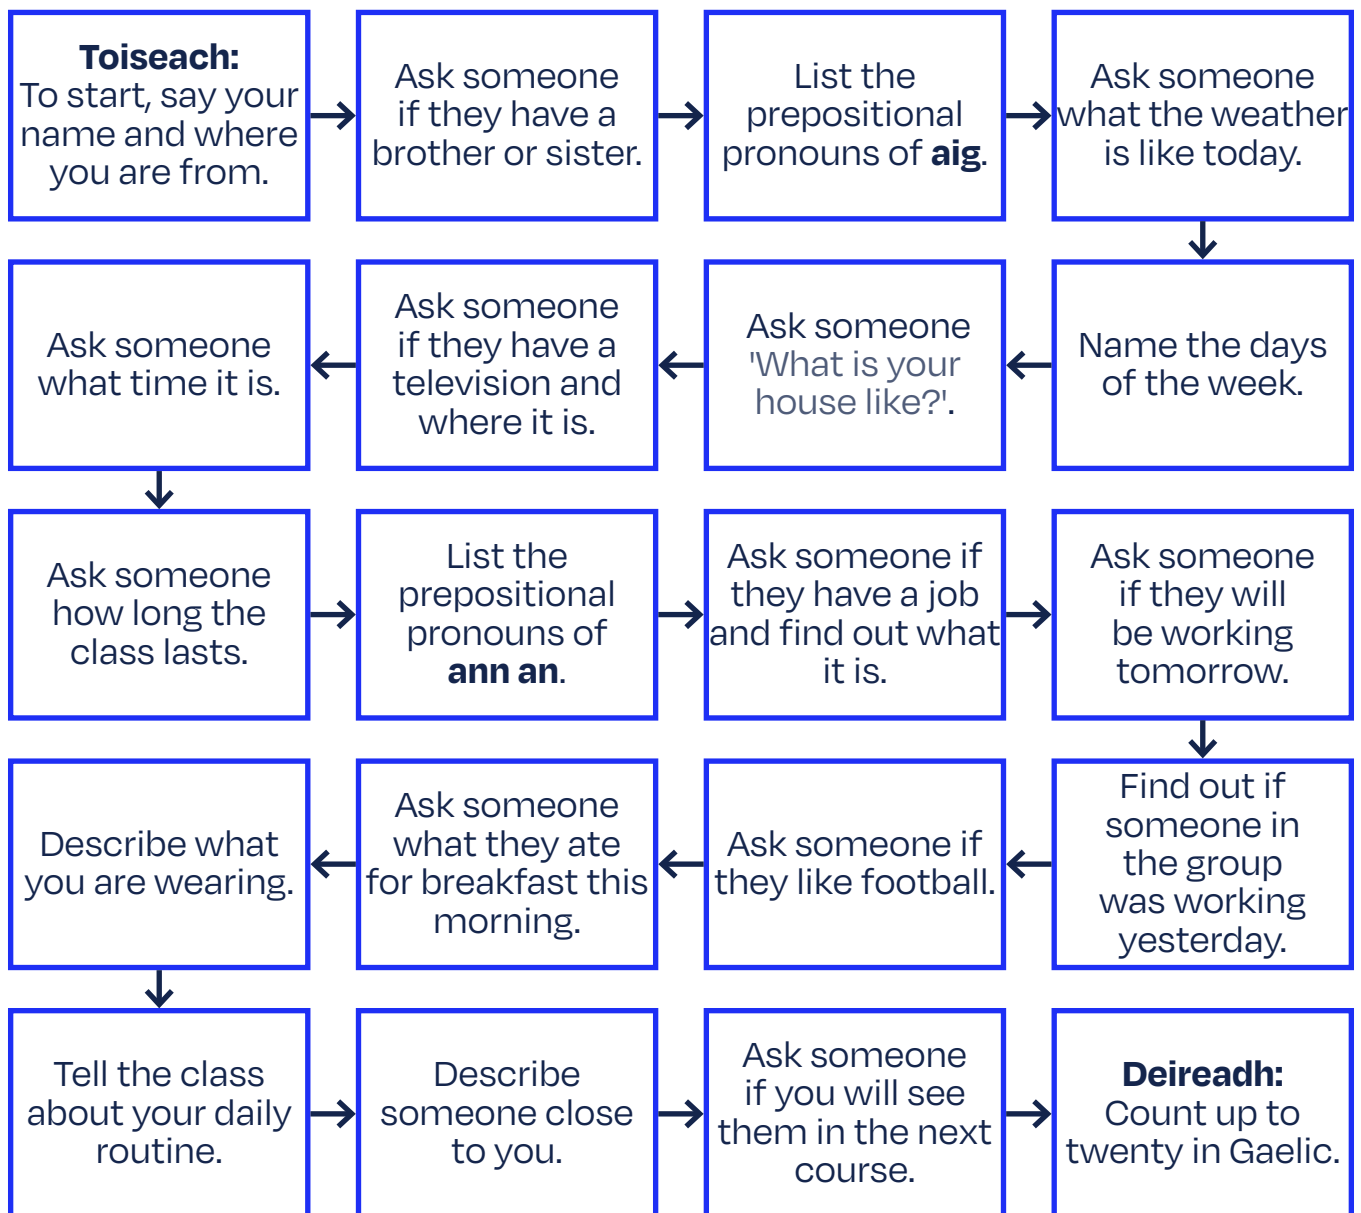

Place the cards face down on the table and learners take turns to try and find matches. If a learner gets a match and is able to name the animal correctly in Gaelic, they get to keep that pair. The winner is the learner with the most pairs at the end of the game.

2. Ceistean air a' chùrsa | Questions on the course

This game can be played in small groups. To start each learner needs to complete the task on square one. Learners can use a dice, if available, or toss a coin [heads: move one square, tails: move two squares]. Follow the instructions on each square before moving to the next player.

3. Caractaran | Characters

Learners use the character cards to practise asking and answering questions from **Cuspair 13**. In this game, learners need to find out who is going where tomorrow and what they are planning to do and/or get, using **an tèid** and **am faigh**. Learners should start by finding out each others names. The **àitichean** 'places' characters are going to and the **rudan** 'items, things' that each character is going to get are listed. Learners can use these to ask:
